

Courage

Having the strength
Being able to stick up for yourself
Afraid to tell
Only long enough to say "I love you"

Being able to stick up for yourself
It's going to be a definite challenge
Only long enough to say "I love you"
She's never even seen

It's going to be a definite challenge
It takes a lot of courage
She's never even seen
It's either kill or be killed

It takes a lot of courage
Afraid to tell
It's either kill or be killed
Having the strength

All Alone

Do the right thing
Skill that can't be taught
Don't exactly see eye to eye
Helps with fear

Skill that can't be taught
Help you in the long run
Helps with fear
Maybe you're the only one?

Help you in the long run
Many different things
Maybe you're the only one?
Present your ideas

Many different things
Don't exactly see eye to eye
Present your ideas
Do the right thing

Courage

Courage to get up
Senior year
I want to graduate
I know I will

Senior year
Living on my own
I know I will
Going to college

Living on my own
I can do anything
Going to college
Courage is believing in yourself

I can do anything
I want to graduate
Courage is believing in yourself
Courage to get up

Have to Have Faith

To be courageous
Unsafe and insecure
Open to new things
In a new light

Unsafe and insecure
Ignorance because they are afraid
In a new light
Accept what you cannot change

Ignorance because they are afraid
More understanding
Accept what you cannot change
You have to have faith

More understanding
Open to new things
You have to have faith
To be courageous

All Alone

Courage is a very strong word
Strength, determination, and drive
People have told me that I have courage
Everything has turned for the worse

Strength, determination, and drive
I try to keep some sort of balance
Everything has turned for the worse
Every time I try to explain, he gets mad

I try to keep some sort of balance
I feel ignored now
Every time I try to explain, he gets mad
The least he could do is listen

I feel ignored now
People have told me that I have courage
The least he could do is listen
Courage is a very strong word

Walk Away

To walk away
Kind of worried
Life on the line
Always scared

Kind of worried
Some people just don't know
Always scared
If I could I would

Some people just don't know
The world is crazy
If I could I would
I think a lot lately

The world is crazy
Life on the line
I think a lot lately
To walk away

Anxiety

I had to start
Sick to my stomach
I stop and think
I didn't feel sick anymore

Sick to my stomach
I couldn't breathe
I didn't feel sick anymore
She calms me down

I couldn't breathe
Courage myself to talk about my feelings
She calmed me down
It started to help

Courage my self to talk about my feelings
I stop and think
It started to help
I had to start

The Cat and Mouse

This one time
Cat and mouse
Watching them
Sitting down

Cat and mouse
After a while
Sitting down
Cat was stuck in a hole

After a while
Very carefully
Cat was stuck in a hole
That was a sign of courage

Very carefully
Watching them
That was a sign of courage
This one time

The Pain

The pain that filters through my heart
The gift you gave was torn apart
The feelings we shared are no longer robbed
For now we are apart

The gift you gave was torn apart
We may both find peace and happiness
For now we are apart
Are you happy now?

We may both find peace and happiness
Now that I lost my love for you
Are you happy now?
No reason no reason at all just dying

Now that I lost my love for you
The feelings we shared are no longer robbed
No reason no reason at all just doing
The pain that filters through my heart

Need Courage

Don't like talking to people
Get a little nervous
Don't know what courage means
I know I will need a lot of courage

Get a little nervous
Courage is to be brave
I know I will need a lot of courage
You don't want to do it

Courage is to be brave
Specialize face to face
You don't want to do it
Already done this before

Socialize face to face
Don't know what courage means
Already done this before
Don't like talking to people

Where to Begin?

Courage, where to begin?
Drive that pushes people forward
A champion a dreamer refused to give up
They step up to the net or line

Drive that pushes people forward
When the whistle is blown
They step up to the net or line
The play is started

When the whistle is blown
More than they ever dreamed of
The play is started
Getting ready for "our game"

More than they ever dreamed of
A champion a dreamer refused to give up
Getting ready for "our game"
Courage, where to begin?

Courage

Nothing to show for it
What courage is
To do something
Being the key

What courage is
End in failure
Being the key
Receive a great deal

End in failure
Be define in different ways
Receive a great deal
For the sake of it

Be defined in different ways
To do something
For the sake of it
Nothing to show for it

Courage

People should have courage
I wished I had more
Knowing what I could have had
Having the courage to talk to anyone

I wish I had more
Now I know
Having the courage to talk to anyone
Getting used to not being so shy

Now I know
Made me realize
Getting used to not being so shy
Courage would take you farther than you imagine

Made me realize
Knowing what I could have had
Courage would take you farther than you imagine
People should have courage

The Morning

Possess some people
Everybody has been courageous
Today isn't worth it
Muster up courage

Everybody has been courageous
Fear is something everyone has
Muster up courage
Doing something you're afraid of

Fear is something everyone has
Fear with courage
Doing something you're afraid of
Others just lack it

Fear with courage
Today isn't worth it
Others just lack it
Possess some people
